The Legendary All-Purpose Truck Canopy

Built to order in five basic models...you can use this top for hunting, fishing, camping and prospecting trips. It is an ideal truck top for commercial use.

Sealed weather-tight, it will protect the load you wish to carry in any kind of weather. Made with a rigid steel frame, covered with Galvannealed steel, you can carry your load on top boats, luggage, pipe, lumber and more.

We handle the finish work as well as there is no extra charge for installs at our plant.

Our Selection

At Caravan Camper Shells, all of our work is custom crafted and made to order. For your convenience, we offer five popular major models, each available for both Full Sized Trucks and Small Sized Trucks.

All five models come standard with; Deluxe Double Doors (49 1/2" wide opening for Full Sized Trucks and 43" wide opening Small Trucks), Tapered Sides, Pressurizing Ventilator as well as a large front and two rear windows. All windows are safety glass and all side and rear windows are tinted. These models also all include two LED rear brake lights and the interior is completely Zolatone coated and includes clothes hangers and one dome light.

With each of these models, a wide array of customization is available to you. You can review our option page to see all this entails. Feel free to add what you like from our optional equipment list.

THE GENERAL

THE GENERAL is designed for the mobile working person. Whether you are a general contractor, craftsman, tradesman or weekend hobbyist, this is the shell for you.

Includes: One Steel Side Door on each side with Storage Boxes to keep your gear secure. Three standard or low profile Roof Racks to haul the big stuff.

STARTING AT: **\$8,735**

Full Sized 5' to 6 3/4' short bed - \$9025

8' long bed - \$9200

All Small Sized Trucks - \$8735

THE WORKSPORT

THE WORKSPORT is engineered for those who love to work hard AND play hard.

Includes: A Steel Side Door and Storage Box on the driver side to secure your tools and or sporting goods. On the passenger side a Window Lifting Side Window with a Screened Center Slider for visibility and venting (you can reach in from the side and grab your cargo without climbing over it from the rear). Two standard or low profile Roof Racks. A third Roof Rack is optional.

STARTING AT: **\$6,500**

Full Sized 5' to 6 3/4' short bed - \$6790

8' long bed - \$6960

All Small Sized Trucks - \$6500

Key Features

Deluxe Double Doors

Designed for durability and ease of access, these doors provide you with a 49 1/2 inch wide opening on full sized trucks and a 43 inch wide opening on small sized trucks. The doors spring out without hitting the trailer jack on the tongue of an attached trailer. They make it much easier to step into as opposed to a tailgate. We're constantly improving the design and our most recent upgrade is gas springs which keeps the doors from blowing around in the wind. These doors lock on the outside, but the inside is always open for safety. The hinges are made of heavy duty galvanized steel.

Tapered Sides

Tapered sides in the shell provide for a sleeker, more sporting appearance and are popular with our customers. Although, it's not just about looks. The aerodynamics of the design provide for better fuel mileage as well.

Automobile-Grade Paint

All of our camper shells receive high quality automotive grade urethane exterior paint, color matched as close as possible to your vehicle's color or any other color of your choosing. We start with a coat of epoxy primer, then add two coats of base paint color. Finally, we add two more layers of urethane clear coat to keep it shining through years of use.

Zolatone Coating

The inside of our shells each receive a Zolatone Coating. This is 100% acrylic, textured paint that is highly scratch resistant and is commonly used on the inside of quality boat hulls. It's corrosion resistant and designed to keep your shell looking sharp for many, many years.

Key Features (Continued)

(775) 323-0270
CaravanCamperShells.com

Pressurizing Ventilator

The well-engineered pressurizing ventilator allow you to have fresh air inside, while keeping the dirt from the roads out. This is accomplished by a pressurization inside the shell. It also provides for an escape route for moisture without allowing rain to enter.

Safety Glass Windows

These are built with Department of Transportation approved tempered safety glass. In the case of an accident, the windows are designed to shatter rather than breaking into dangerous large jagged pieces.

Tinted Windows

For those mornings when you need to sleep beyond sunrise, these tinted windows will help you get your well-deserved rest. They also will keep headlight glare down in the evenings. Not only do they assist in keeping inside the shell cool, but they will reduce sun damage as well.

Dome Light

Your shell comes with an incandescent dome light built with a sturdy metal fixture to keep it from breaking. If you want more brightness, you can choose the option of having an additional dome light installed.

Two LED Rear Brake Light

Our high quality LED Rear Brake Lights last longer and use less power while providing you with a key safety feature. Each shell comes with two and these 9 diode lights are built to last. We include the installation with your order.

Clothes Hangers

We know you're on the go and will need to provision yourself depending on the weather and the adventure. Your camper shell comes with two clothes hangers that can typically hold five large jackets each.

Optional (Available on THE GENERAL and THE WORKSPORT):

Gun Racks

Whatever your adventure, whatever the job, we've got you covered. We offer gun racks mounted in the storage boxes as an option which also double well for a place for your tools. This will allow you to handle both your hunting expeditions and your daily work.
